Address: No. 142 , Nisalagiri Uyana , Boralugoda , Poruwadanda, Sri Lanka (Home)

EDUCATION AND TRAINING

15/08/2026 – CURRENT
MASTER OF SCIENCE IN COMPUTER SCIENCE (READING) University of Sri Jayewardenepura

08/05/2023 – 10/05/2026 Colombo, Sri Lanka
BACHELOR OF SCIENCE IN COMPUTER SCIENCE (SECOND UPPER)
University of Colombo School of Computing

GPA : 3.47 / 4.0

01/01/2019 – 22/02/2022 Horana, Sri Lanka
G.C.E. ADVANCED LEVEL (PHYSICAL SCIENCE) Taxila Central College

Chemistry - A
Combined Maths - B
Physics - B

G.C.E. ORDINARY LEVEL Taxila Central College

9A s

WORK EXPERIENCE

SOFTWARE QUALITY ENGINEER INTERN – PICKME – 10/11/2025 – 11/05/2026 – COLOMBO , SRI LANKA

Worked as an Intern Software Quality Engineer in the Performance Engineering Team at PickMe. Automated the organization's manual performance profiling process for driver and passenger applications using Python, ADB, and Appium. Contributed to performance testing and monitoring using Apache JMeter, Grafana, Android Studio Profiler, and Xcode Instruments, while gaining exposure to API and mobile app automation using the Gauge Automation Framework. Also developed the "PickMe Release Tracker" using Java Spring Boot, React, and PostgreSQL, and handed it over for further development. Worked in an Agile environment using JIRA and Confluence.

Skills: Liaison, ADB , Appium, Apache JMeter, Grafana, Android Studio Profiler, XCode Instruments, Gauge Automation Framework, Java Spring Boot, React, PostgreSQL, JIRA, Confluence.

SKILLS

Software Quality Engineering

Agile (Scrum) | Postman | Test Automation | Git | Regression Testing | Sanity Testing | JIRA | GitLab CI CD | Integration Testing | Monitoring tools - Kibana, Grafana, Nagios | API Testing | Smoke Testing | Manual Testing | Performance Testing | Jmeter

Software Development

GCP | AWS | Java Springboot | Machine Learning | Java (computer programming) | PostgreSQL | SQL | JavaScript Framework | Javascript (React.js)

LANGUAGE SKILLS

Mother tongue(s): **SINHALA**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C1	C1	C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

University of Moratuwa, 08/06/2022

Python Beginners

PROJECTS

01/12/2025 – 30/05/2026

Performance Profiling Automation (R & D)

developed an end-to-end Android performance profiling automation framework using Python, ADB, and Appium. The framework automated performance data collection across both the Driver and Passenger applications, significantly reducing the manual effort required for performance analysis.

01/01/2026 – 11/05/2026

PickMe Release Tracker

Developed by Java Springboot, React and PostgreSQL. PickMe Release Tracker track progress of the monthly releases in pickMe. It can create any team you want and register to the new monthly release . Release Tracker track each team performance for new releases using JIRA tickets. And also it shows what versions are currently in production for each app .

01/04/2025 – 20/09/2025

FARMIO (Third Year Group Project)

Engineered a multi-sided platform to streamline transactions among 500+ farmers, buyers, transport providers, waste management agents, and warehouse owners. Aiming to increase farmers' profits by approximately 6% by eliminating middleman markups.

- Designed frontend and backend using React, Tailwind CSS, and Spring Boot Microservices, supporting 100+ listings.
- Collaborated within a 5-member Agile team using Git and Docker for version control and deployment.

Technologies: React, Tailwind CSS, Docker, Java Spring Boot, PostgreSQL, Git Microservices Architecture .

01/07/2025 – 30/08/2026

CONVO (Mobile Application Development Project)

A real-time messaging app featuring QR code–based connections for faster and more secure chat initiation.
- Coded real-time messaging system with Firebase, handling 50+ messages
- Integrated QR codes for secure connections.
- Executed user authentication and chat UI in Flutter, tested with 20 users. Technologies: Flutter ,Firebase ,Android Studio

Technologies: Flutter ,Firebase ,Android Studio

Link https://github.com/ManujaRansara/Convo

01/01/2024 – 01/05/2025

PARLIMATE (Second Year Group Project)

A scalable engagement platform connecting citizens, politicians, and political parties with role-based access, secure authentication, and interactive features such as surveys, posts, announcements, fundraising, and meetings.
- Built secure login and registration system with Java Servlets and Tomcat, adopted by 50+ test users.
- Created survey creation module enabling members to create and share 50+ surveys.
- Worked in a 4-member Agile team, following MVC architecture and collaborative reviews in Figma.

Technologies: Java Servlets, Tomcat Server, HTML, CSS, JavaScript, PostgreSQL, Git, MVC, Figma
